

They Say

There is enough to do at home. The United States will cry out before the Spaniards.

The people in this country are suffering.

The United States has no more right to interfere with Spain than any other country has to interfere with any State that may rebel against the United States.

Meddling people generally get hurt.

Be honest when you deal with people.

What will the United States do with Spain?

Our American Counsel has been insulted.

It takes England to resent an insult.

She will do it or destroy the nation.

If you want a reputation apply to the "marked Congress."

The senator from nowhere made a speech some time ago and declared that he was a privileged character.

It makes no difference what you do, or what your character as reputation may be, you can have a certificate from the "marked Congress."

Major Fleetwood gave them all to understand that he wanted no "marked Congress" in his fair.

It is not the man who talks is the best citizen.

If you want your deeds to shine you must show your manhood.

Why are some shyster lawyers like a flea?

Because they have not brain enough to stay in one place.

They will also sell out their brother attorney for a piece of "filthy lucre."

If one-third of these shysters were weeded out, the profession would be dignified.

It is impossible for some negroes to have a decent club.

A great number of them make gambling their object and not the incident to its success.

A lawyer who is not competent to draw up a simple act of incorporation has no business to practice before the bar.

Making noise and showing your ignorance is not practicing law.

There are two colored attorneys who never have cases in the upper court.

The last case one had the judge asked him to define a latin phrase he used, which is as follows: "Domnant quod non intelligunt."

In reply, this negro attorney said it meant that a dog could understand.

The court got disgusted and this negro attorney has never shown his head there since, except when he was summoned there.

The people will support the regulars.

Bolters should not have any quarters.

Some of the colored attorneys are making a mark.

Town Talk died last week with a tongue thrashing from The Bee.

Cuba may be free if Spain will permit it.

If the United States go to war the Afro-Americans, of course will not be good enough to fight.

Perhaps Town Talk will take the musket.

The Daily Post has taken a rest on the color line.

Howard Brooks of the Star, who reports the Police Court news ought to attend to his paper and not meddle with other people's business.

Some people get too smart some times.

What has become of the days that have passed away?

It is better not to know it all.

We often talk too much when it is not necessary.

The Sparta Buffet is the up to date resort.

NOT NICARAGUA ALONE.

Revolution May Embrace All Five Central American Republics.

Managua, Nicaragua, Feb. 27.—There are signs that the revolution in Northern Nicaragua may spread all over Central America. It has a distinctly religious cast and the Leonites can count on the aid of the clergy, not only in this republic, but in the four other republics as well. The clerics fear the growing popularity of the United States in Latin America, and also fear American control of the canal. The growth of American ideas here is regarded as tending to extend liberalism which the clergy desire to stamp out.

New York priests whom Zelaya banished are said to be fanning the flames of the revolution. The Liberals have no confidence in the ostentatious display of sympathy for Zelaya by leading Conservatives in this city. It is believed that it is only a device to lull apprehensions and give the revolution time to grow.

President Zelaya cannot hope for aid from the Conservatives, the richest most influential people in the country. It is now known that some of the leading military officers adhere to this party. Conservative leaders have been growing suspicious of Zelaya, whose desire to assume a dictatorship has been apparent although denied by his friends. All the influence of the high social classes is thrown against Zelaya, whose attitude against the clergy has incensed them.

It is openly asserted that the Clerical party throughout Central America expects to gain control of all the Governments and to restore the ancient privileges of the church. Guatemala is ripe for revolution, owing to the deep-seated dissatisfaction of the intelligent portion of the people with the military rule of Barrios, whose humble extraction and record for cruelty have turned the upper class against him.

President Bonilla, in Honduras, is showing liberal tendencies. He would be likely to give more power to Congress and to become merely the executive, but his party (Clerical) insists on his retaining supreme dictatorial powers. Zelaya is exceedingly apprehensive, as the revolution in Nicaragua shows every sign of increasing strength. President Gutierrez, of Salvador, has just reorganized the military departments on the Guatemalan frontier, and is prepared for an trouble.

Big Strike in Baltimore.

Baltimore, Feb. 28.—Six thousand garment-workers of this city, member of the American Federation of Labor, are out on strike, and about 20,000 people are idle in consequence. Twenty-five manufacturing firms, practically all in this city, are affected by the strike, which is directed against the Knights of Labor as well as against the employers. Strikers have formulated the following agreement, which they insist that the manufacturer must sign before work will be resumed in the shops, where it is now practically suspended: "None but United Garment-Workers shall be employed by manufacturers or manufacturers' contractors, and only apprentices with union cards shall be engaged, the agreement to be in force for one year."
